## "In A Bad Way"

Many a Norway Reader Will Feel Grateful for This Information.

When your back gives out; Becomes lame, weak or aching; When urinary troubles set in; Your kidneys are "in a bad way." Don't delay—use Doan's Kidney Pills. Here is good evidence of their worth. J. O. Ripley, blacksmith, Oxford St., South Paris, Me., says: "I have used Doan's Kidney Pills and was cured of an attack of kidney trouble. For several months I was feeling quite miserable and there were pains across the small of my back. The kidney secretions were irregular in passage and unnatural. I finally procured a supply of Doan's Kidney Pills and after I had used them a short time the pains disappeared and my kidneys caused me no further trouble." (Statement given July 25, 1908.)

**PRaises DOAN'S AGAIN.**  
On July 19, 1911, Mr. Ripley said: "I have had very little occasion to use a kidney remedy since Doan's Kidney Pills cured me in 1908. I am constantly recommending this remedy to other kidney sufferers."

For sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, New York sole agents for the United States.

Remember the name—Doan's—and no other.

## ANTICS OF AN ACTOR.

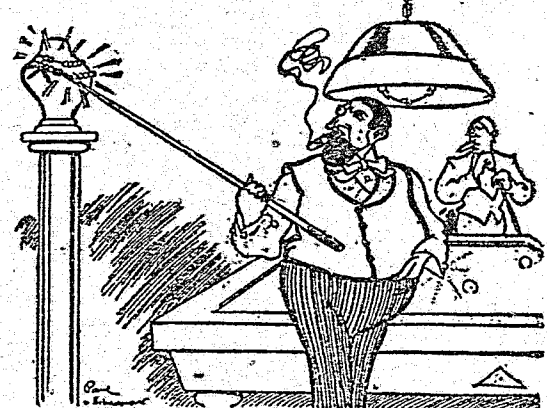

The Prank the Elder Sothern Played in a London Shop.

One day the elder Sothern, the creator of Lord Dunsany, went into an ironmonger's shop in London and asked for Macaulay's "History of England." "We do not sell books, sir," said the assistant. "This is an ironmonger's shop." "Well, I'm not particular," said Sothern, pretending to be deaf. "I don't care whether it is bound in calf or russet." "But this is not a bookseller's," shouted the assistant. "All right," said Sothern; "wrap it up neatly." "I want to have it sent down to the hotel. It's for a present I wish to make to a relative." "We don't keep it," shouted the assistant, getting red in the face. "Do it up as if it were for your own mother. I don't want any-

"I am so hungry, mum!"  
"Really?"  
"Truly, mum."  
"Then saw that food for me."  
"Me physician says, I shall take no exercise on an empty stomach, mum."

Through French Eyes.

Getting Them Wholesale.  
"I saw you kissing Sister Sue last night."  
"Don't say anything about it. Here is a quarter for being a good boy."  
"Quarter nothing! I want at least a dollar. They ought to be worth a cent a kiss."

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or tinnitus, hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; and cause out of by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.

F. J. CHENEY & CO., Toledo, O.  
Take Hall's Family Pills for constipation.

**GILEAD.**  
Mrs. Herbert Cole is better.

Frank LeB itton is hauling pulp for Jock McBri e.

Mrs. Ivan Heath of Bethel has visited relatives in town.

Irving Leighton has been on the sick list but is reported better.

Mrs. Lola Lary of Bethel has visited her daughter, Mrs. Archie Heath.

Israel Starr has finished working for George Leighton and returned to Bethel.

Owing to the bad weather a very small attendance at the dance last Saturday night.

Richard Verville has been confined to the house with chicken pox for several days.

Mrs. Elmer Newell of Gorham, N. H., has been the guest of her father, Judge Bennett.

**Blame Your Stomach**  
Get Rid of the Poisonous Gases and Fermenting Food.

If you suffer from headaches, dizziness, biliousness, constipation, inactive liver, nervousness, sleeplessness, bad dreams, foul breath, heartburn, shortness of breath, sour stomach, or dependancy, be sure and try M-I-O-N-A Stomach Tablets.

If you want immediate relief from an upset or rebellious stomach try M-I-O-N-A Stomach Tablets.

You take no risk, not a particle, for if M-I-O-N-A Stomach Tablets do not do all that is claimed for them, Frank Kimball, proprietor of the Noyes Drug Store, will return your money.

## SIX PER CENT. INVESTMENT

\$500,000.

City Water Company of  
Chattanooga  
Tennessee  
Six Per Cent. Bonds, due  
1931

Secured by a closed mortgage on water works  
supplying filtered water to the City of Chattanooga  
and its suburban communities, comprising  
a population estimated at 80,000 (and rapidly  
increasing).

This Water Company has successfully oper-  
ated its plant and business for more than a  
quarter century under a charter granted  
it by the State of Tennessee.  
Its water supply is from the Tennessee river  
and is unlimited.  
These bonds also bear the GUARANTEE OF  
PRINCIPAL AND INTEREST by the Ameri-  
can Water Works & Guarantee Company, hav-  
ing a long established reputation as being  
the most successful operators of water works  
in the United States.

Full particulars may be obtained at our office  
or by circular mailed on application.  
We offer and recommend the above  
bonds as affording a desirable six per cent. in-  
vestment.  
Price 101 and interest. 41 tf

## The Scrap Book

Expecting Too Much.

Elliott Woods, superintendent of the  
capitol, tells a story about a new  
member of the house whose frugality  
he is always commending to his con-  
gressional friends.  
The new member  
arrived in  
town and hunted  
Superintendent  
Woods up immedi-  
ately.

"I reckon I'd  
like to look at  
my quarters," he  
said to the super-  
intendent.

He was taken  
to the house of-  
fice building and  
shown to one of  
the substantially furnished office  
rooms.

"This is fine," said the new member.  
"But where are my other rooms?"  
"Oh, you can't have another room  
for several years—not until you have  
become chairman of a committee," re-  
plied Woods.

"What's that?" exclaimed the new  
congressman in dismay. "How do  
you expect me to sleep, cook, eat and  
work in one room?"—New York  
World.

### Laugh It Off.

When you can't make any headway  
And each day seems like a dead day  
And the thorns begin to pierce till your  
nerves are shattered, racked,  
Stop a bit, get busy quaffing  
From the bottle labeled "Laughing!"—  
Set your ail and then start over. It's a  
tonic, for a fact.

Are you grumpy? Are you fazed?  
Do you feel all worn and fazed?  
Every time some fresh work doth claim you?  
Have you lost the thing called tact?  
Try a cup of sunny chaffing  
Sweetened up with merry laughing.  
It's the best thing on the market for a  
tonic, for a fact.

### A Dangerous Story.

A Yale undergraduate had been hav-  
ing a fairly lively time of it during  
his summer vacation, and his allow-  
ance had not been keeping schedule  
time with his expenditures.

He was invited out to dinner with  
his mother, and he was seen to get  
a bit nervous  
when she began  
one of her favor-  
ite stories. This  
concerned the  
burning of their  
home, on which  
occasion the son's  
vacation, left on a  
bureau, was  
found ticking in  
the ruins after  
the house had  
been destroyed.

At the conclu-  
sion of the story  
the college boy  
jumped up abruptly and left the room  
with his handkerchief over his face  
as if suddenly seized with nose bleed.  
He did not return for several minutes,  
by which time the conversation had  
drifted.

After dinner the "undergrad's"  
chum asked the significance of the  
move.  
"I'll tell you, but nobody else," said  
he. "When mother told that story I  
was afraid she was going to ask me  
to show the watch."—Chicago Post.

### Full of Snap.

Gretchen, the daughter of an old  
German named Kruegel, had been  
serving as domestic about two weeks  
in the household of the local judge  
when father and employer met on the  
village street.  
"Well, goodge," said Kruegel, "how  
you like dot Gretchen by dis dime al-  
retty?"  
"Like her?" returned the judge in  
his blunt way. "Why, she's just  
great! We never had any one in the  
house in her line that entered into  
work with so much spirit. She's full  
of snap all the time."

Kruegel turned pondering away,  
and, meeting his frau at his home  
portal, he sorrowfully said: "Teresa,  
something must goe wrong mit dot  
Gretchen. I yoost dit metted the  
goodge, and she said dot she vas full  
of schnapps all de dime."

### Setting His Bill.

The late Eugene Field when a resi-  
dent of Kansas City drifted into a  
cafe one evening with a party of  
friends. Along came the proprietor  
and asked Field if he couldn't arrange  
to square up that little account of his  
that had been running so long.

"How much is it, anyhow?" asked  
the future author of "Little Boy  
Blue."  
"It's about \$38," said the proprietor.  
"Couldn't you square that up now?"  
"Haven't got the money," declared  
Field. "If I had I'd pay you."  
"Well, I'll settle for whatever you've  
got," chanced the proprietor.  
Whereupon Field went through his  
clothes and dug up from all sources  
the sum of 65 cents. The proprietor  
was game and settled the \$38 account  
for Field's pile.

But that wasn't all. "Isn't it cus-  
tomary," inquired Field, "for the prop-  
rietor to set 'em up when a customer  
comes in and squares up a \$38 ac-  
count?"

"Well, yes, I suppose it is customary," admitted the proprietor. "Sure  
it is. What'll you have?"  
"I don't know what the rest of the  
crowd wants," says Field, "but I  
know what I want. I'll take a bottle  
of champagne."

You can't prove you are a good talk-  
er by doing it all. Comparisons are  
needed.—Atchison Globe.

"Feared a Freshet."  
In the "upper end" of Pike county,  
Pa. there is a man who is so noted  
for his conversational abilities that his  
acquaintances avoid giving him unne-  
cessary opportunities to talk.  
One cold morning this man rode up  
to a hotel in the neighborhood just as

"HAS ANYTHING HAPPENED?"

the guests were finishing breakfast.  
He dismounted, walked in, saluted the  
landlord in his usual loud tones and  
declared in a boisterous torrent of  
words that he was so cold he could  
hardly talk.

Just then a nervous traveler who  
was present stepped up to the landlord,  
and, taking him by the coat, said:  
"Mr. L., have my horse brought as  
soon as possible."  
"What is the matter, my dear sir?"  
inquired the anxious landlord. "Has  
anything happened?"

"Nothing, nothing! Only I want to  
get away from here before that man  
thaws."—Boston Herald.

### He Got His.

The tired, patient wife had finally  
hushed her ailing infant to sleep and  
had tenderly laid it in its little bed.  
The head of the house was at home,  
peevish and faultfinding. At length  
he became unendurable.  
"You've done nothing but make mis-  
takes tonight," he growled.  
"Yes," she answered meekly; "I be-  
gan by putting the wrong baby to  
bed."

### Expected a Fight.

A Fifeshire farmer gave his herd  
laddie, Jamie, a half wit, a ticket to  
admit him to a sacred recital in a  
neighboring town to be given by local  
talent and told the lad to be sure to  
enjoy himself.

The farmer was greatly surprised to  
find his servant in the kitchen long be-  
fore the conclusion of the performance,  
and upon asking him why he had re-  
turned from the recital Jamie replied:  
"Weel, maister, ae man yonder began  
to sing 'I'm the King of Glory,' then  
another said he was the king of glory,  
and when I saw three others standin'  
up an' sayin' they were the kings of  
glory I kent there was to be a fecht,  
so I cam awa' an' left them to finish  
it amon' themsel's."

### The Pebble Industry.

A peculiar form of mineral wealth  
is found on Plum Island and Goose  
island, two of a row of islands lying  
between the northern point of Long  
Island and Watch hill. It consists in  
heaps of richly colored quartz pebbles,  
showing red, yellow, purple and other  
hues, which are locally called agates.  
They are used in making stained glass  
windows, and there is a sufficient de-  
mand for them in New York to keep  
the owners of one or two sloops em-  
ployed in gathering them from the  
beaches, where the waves continually  
roll and polish them, bringing out the  
beauty of their colors.—Scientific Ameri-  
can.

### The First Wheels.

Although it seems difficult to realize  
a world without wheels, these useful  
spheres, which have now become ne-  
cessities, were not used in England un-  
til comparatively recent times. It was  
not till the year 1568 that the very  
first carriage with wheels attached  
was made. This was built for and by  
the orders of Queen Elizabeth. The  
first public conveyance that plied for  
hire as a cab was not in use until  
1625, while the ancestor of our dear  
old horse buses, the stagecoach, did  
not arrive on the streets till 1659.  
Who can tell how many years it will  
be before we can dispense with wheels  
altogether?—London Mail.

### RUMFORD.

Dr. A. L. Stanwood has spent several  
days in Waterville on business.  
Coydon Love from New Mexico has  
been visiting his uncle, Preston Love.  
Lester E. Henry is attending the even-  
ing commercial school in the high school  
building.

Mrs. F. F. Bartlett is in Boston, visit-  
ing her daughter, Marie, who is studying  
violin music.

### ALMOST LOST HIS LIFE

S. A. Sted, of Mason, Mich., will never  
forget his terrible exposure to a mer-  
ciful storm. "It gave me a dreadful cold,"  
he writes, "that gnawed severe pains in  
my chest, so it was hard for me to  
breathe. A neighbor gave me several  
doses of Dr. King's New Discovery  
which brought great relief. The doctor  
said I was on the verge of pneumonia,  
but to continue with the Discovery. I  
did so and two bottles completely cured  
me." Use only this quick, safe, reliable  
medicine for coughs, cold, or any throat  
or lung trouble. Price 50c and \$1.00.  
Bottle free. Guaranteed by The  
Noyes Drug Store.

### EAST WATERFORD.

Merton Young was in Norway on busi-  
ness.

Violet Gammon is at work for Mrs.  
Frank Morse.

John Freeman called on Winslow Bis-  
bee, Tuesday.

Hattie Hilton is visiting her sister,  
Vestel Johnson.

There will be a dance at Haskell's  
hall, Saturday, Feb. 17.

Mrs. Cyrus Green and children were  
in Norway on business, Friday.

Bert Bean and son, Pearl, are at work  
for E. N. Nevers, cutting timber.

Leland Waterhouse and wife called on  
Mr. and Mrs. Geo. Grey, Sunday.

Mrs. J. B. Haskell is helping Mrs.  
Martha Nevers with her house duties.

H. O. Rolfe has the mill known as the  
Ames toy mill and made it into a dry  
house where he will dry his lumber.

Carroll Sanborn and wife called on  
Mr. and Mrs. Fred Learned, Sunday.

Mrs. Sanborn's health is much improved.

### SOUTH BETHEL.

The infant son of Mr. and Mrs. Geo.  
Currier has been sick, threatened with  
pneumonia.

Edgar Chase is working in the saw-  
mill at Locke's Mills, and his son Rob-  
ert is working at Sunday river.

Freeland King and Alice Maxim of  
Norway spent Sunday with Mr. King's  
parents, Mr. and Mrs. Amos King.

Mrs. Will Swan with her son Pearl and  
little daughter Nell and Alice King re-  
cently visited relatives and friends at  
Greenwood a few days.

Mr. and Mrs. Chas. Capen and little  
daughter Ethel, and Mrs. Ned Carter  
and baby Edward of Bethel, also Mrs.  
Geo. Woodsum of Locke's Mills called  
at M. T. Abbott's, Sunday.

J. D. Allen of Paris recently visited  
his daughter Mrs. Ernest Brooks who  
has been on the sick list for sometime,  
but is now on the gain, being able to  
drive out on pleasant days.

Mr. and Mrs. A. G. Cushman gave a  
Valentine party Wednesday evening,  
Feb. 14th in honor of M. Cushman's  
sister, Miss Althea Mason of Paris. Re-  
freshments of cake and coffee were served  
and a very pleasant evening was  
passed by all present.

Little Ruth and Thelma Tracy of  
Greenwood are staying with their aunt  
Mrs. M. T. Abbott while their mother  
is at Lewiston to be with her son Hugh  
who recently underwent an operation  
for appendicitis at the C. M. G. hospital.

### OXFORD.

Mrs. Cyrus Tucker of Norway is at J.  
E. Parrott's.

George Morris has been drawn on the  
traveler jury.

Mrs. Quimby Millett is at the C. M. G.  
hospital for treatment.

Mrs. Edith Haines of Westbrook has  
been visiting her sister, Mrs. J. E. Par-  
rott.

G. H. Jones was called to Lewiston to  
attend the funeral of his aunt, Mrs. El-  
len Jones.

W. E. Holden is on a trip through  
eastern Maine in the interest of the  
Holden Basket Mfg. Co.

James Russ has a new telephone in-  
stalled by the Maine Telephone & Tele-  
graph Co., 12-2. Fred Marston's num-  
ber has been changed to 13-5.

Mrs. Sadie Bowen has been in Port-  
land because of the illness of her daugh-  
ter, Elsie. She came home, and a sur-  
gical operation for appendicitis was con-  
sidered necessary, and she returned to  
Portland.

### RUSSET SHOES

We have a Dye for  
Blackening Russet Shoes  
so they can be worn as black. When  
your Russet Shoes get worn and look  
bad, have them Dyed black, it costs  
25c. Try it.

## THE NORWAY ADVERTISER

Subscription Rates: \$1.50, \$3.00 and \$5.75 per year according to the time of payment. Births, marriages and death notices inserted free. Obituaries, funeral notices and resolutions \$1.00 each or according to space used. All notices and advertisements printed in this office receive one reading notice free. Notices of church and society entertainments, where an admission fee is charged, must be paid for at 10 cents per line, except when all printing for the same is done at this office, when one free notice will be given. When ordering the address of your paper changed please give the OLD as well as NEW address.

### Coming Events.

Friday evening, Feb. 23, Basket Ball game and dance, Norway Church House. Thursday evening, Feb. 29, Leap Year Ball, Norway Opera House.

### NORTH LOVELL.

A number from this place attended the drama at Lovell, Friday night. Mr. and Mrs. Percy McKee visited at J. W. Kendall's at Center Lovell, Thursday. Mildred Codwell of Four Corners has been visiting Marion McAllister the past week. Mrs. Maud McAllister of West Stoneham was at L. E. McAllister's, Friday, and Mrs. Eva Richards spent the day with Mrs. Edith Watson. Mrs. Scott Harrison went to the C. M. G. hospital in Lewiston instead of going to Portland. She had a very critical operation, but is comfortable although very sick.

### GILEAD.

Eva Rowe is working for Mrs. Frank Coffin. Virginia Edgerly spent the week-end with friends at West Paris. Arthur Tanguy of Gorham, was the guest of friends over Sunday. James Fagan of Berlin, N. H., spent Sunday with his mother, here. Mrs. Archie Verrill spent Tuesday with her sisters at Shelburne, N. H. Mr. Bennett while working in Leighton's mill, cut his hand badly, laying him off from work. A good time is reported by those who attended the dance, Saturday evening. Gorham orchestra furnished music.

### NORTH WOODSTOCK.

George Brown has a flock of twenty-four young lambs. Lewis Farnum is at work for Ernest Billings, sawing pulp. Albert Farnum has purchased a pair of steers of Fred Bryant. Charles Libby from Bryant Pond, is driving team for H. A. Sessions. Grace Morse has finished work at Hotel Rumford and returned home. Addison Bryant and Harry Billings went to Richardson Pond, Thursday, for a week's visit. Florence Hopkins is at work for Mrs. Mabel Bean and Minnie Hopkins is staying at home for the present.

### MASON.

C. A. Tyler visited in the place, Sunday. Addison Bean has come to live with A. S. Bean. Ralph Cushing is working for E. H. Morrill. Marion Bean visited at Ervin Hutchins, Sunday. Mrs. Webb Walker visited relatives at the Flat, last week. Bertha Tyler has visited her sister, Mrs. Clyde Whitman, on Green Hill. Irene Morrill has been out to her grandmother's, Mrs. Daniel Morrill's, learning to spin.

### EAST WATERFORD.

Mrs. Martha Pridemore remains about the same. H. O. Rolfe and C. Pridemore were in Portland, Saturday on business. John Wood and wife spent Sunday at her father's, C. M. Billings'. Mrs. Frank Damon is caring for her daughter, Mrs. Pearl Ripley. Addie Olmstead is able to be out of doors. Her eye is improving. Mrs. Elbridge Pike has gone to Lewiston to the hospital for treatment.

### SOUTH WATERFORD.

Clifford Adams of Portland is home for a few days. There are several cases of mumps reported at the Flat. George Hill is hauling cord wood to several customers in the village. The brown tail moths are being numerous destroyers of the west part of the town by John Miller. The family of Mr. and Mrs. L. R. Rounds was illuminated on Feb. 2nd by the advent of a daughter, Ruth Evelyn. A great quantity of birch of fine quality is being cut and hauled from the Moose pond section near Will Haynes' home.

### HEBRON.

Herbert Tildon, D. D., lectures Feb. 23, at the Baptist church on "The Conjugation of the Verb, Man." March 19, on "England." April 5, "The Continent." May 3, subject to be announced.

### TRAINING CHILDREN.

More lies are told by mothers, fathers and nurses to children than all the rest of the lies put together. We lie to them with false threats; we lie to them with false promises; we lie to them with false stories; we teach them by our practice that a child has not a right to truth, and then we wonder that they learn the lesson.

### MARRIAGES.

In Livermore Falls, Feb. 17, Charles K. Flanagan, formerly of Norway, and Lola M. Knowlton, both of Livermore Falls. In Norway, Feb. 17, by Rev. B. C. Wentworth, Carl F. Pratt and Nellie M. Snow. In Portland, Feb. 19, by Rev. James E. Albin, Myron Everett Farnum of South Paris and Della Amelia Mott of Norway.

### BIRTHS.

In Norway, Feb. 10, to Walter H. and Herta Stevens, a son. In East Waterford, Feb. 15, to Pearl and Edith Ripley, a daughter.

### DEATHS.

In Wolcottville, Feb. 14, Emily J. Bennett, widow of Horace A. Bennett, aged 92 years, 3 months, 3 days. In South Paris, Feb. 15, Mrs. Harriet Parker, aged 88 years, 11 months, 21 days. In South Paris, Feb. 16, Mrs. Miriam M. Stone, aged 57 years. In Lewiston, Feb. 19, Henry Davis of Redding, aged 75 years. In Hartford, Feb. 9, Guy Ames, aged 58 years.

## Henry Davis.

Henry Davis, Esq., of Redding died in the Central Maine General hospital at Lewiston, about 6 o'clock, Monday morning. Mr. Davis had been for a few days with his son, Geo. H. Davis, at South Paris, and on Wednesday of last week went to the hospital for consultation with regard to an affection of his right arm, which had been troubling him for some time. On Friday an operation was performed which required an extensive cutting to get at the bone and the shock proved to be too severe for him to rally. Mr. Davis was the son of Benjamin Davis and was born in Woodstock. Most of his life has been spent in that town and in Milton. He was nearly 74 years of age. He was by occupation a farmer and been a justice of the peace for years, had held all of the town offices at different times nearly his whole life and a lifelong Republican. He was honored and respected by all and one whose word was as good as his bond. Square dealing was his motto. Always taking a great interest in his work and all of his surroundings, a great reader, and always well informed on all questions. A good man has gone and one that will be missed. On account of failing health he had to give up work. He belonged to the Knights of Pythias and was a member of Oxford Bear lodge of Hanover and was a member of Franklin Grange, Bryant Pond. He leaves four children, George H. Davis of South Paris, Mrs. Cora R., wife of D. W. Pratt of Redding, with whom he had made his home of late, Frank E. Davis of Southwick, Mass., and Lizzie G., wife of George E. Redding of Redding. Of the ten children of Benjamin Davis he is survived by only one, Miss Emma Jane Davis. The funeral was held at Mr. Pratt's at Redding, Wednesday, at 10 a. m. under the auspices of Hanover Lodge, K. of P. attended by Rev. L. W. Raymond of West Paris and burial at Milton, his former home. Mrs. Georgia Mayo Stuart's bail has been reduced from \$3000 to \$2500 and friends have gone on her bail. She has returned to her Back Bay apartments. PRETTY HOMEMADE SCREEN.

### How to Do the Work Easily and at Trifling Expense.

A useful ornamental bed or sitting room screen can be made at home by getting from a builder's supply shop four slater's laths, saving each off to the length of fifty-seven inches. This will leave six short pieces twenty-four inches long. Nail the pieces together firmly to form two frames, putting a short piece across the center of each frame to brace it. Select cheap cretonne to harmonize with the color of the room in which you wish to use the screen. Blue and white is a good color combination for a bedroom. Get three and one-quarter yards, which will cover one side of each frame. Lay the frames on the floor and tack the cretonne on each of them, folding the material over each end and the sides, taking care to stretch it over the frames tightly and smoothly. This forms the back of the screen. On the front part put two pieces of stiff cardboard eight inches wide and the width of the screen that has previously been covered with dark blue sateen. Tack these firmly to the top of the frame, and to the lower edges plain blue and white flowered lawn extending the length of the screen. All around the edges, with brass headed tacks, put a binding of white tape. This can be a plain or fancy weave. The latter adds to the attractiveness of the screen. Tack the tape on the plain sateen surface so that it forms eight-inch squares. Repeat this on both frames and join them at each end with strong brass hinges. With small expense and very little trouble you will have a good looking screen that will answer every purpose designed for such a piece of furniture.

### HOW TO MARK LINEN.

Suggestions For Putting on Lettering So It Will Be Lasting. Napkins, tablecloths, sheets, pillowcases and table mats are frequently marked with an insert of lace, with the lettering done on that rather than worked solidly on the material itself. This method is stylish and effective, its one drawback being rather poor wearing qualities. Bits of net or canvas the required size are lettered, then basted carefully on the linen, the edge closely button-holed in a narrow straight seam and the material cut away beneath. Leave an edge to turn back and be hemmed to the linen on the wrong side or greater firmness. Various lettering is used on the inserts. If fillet net is chosen the letters are done in the regular fillet stitches, of cross stitch and darning. Sometimes heavier canvas is used and the letters cross stitched in all white or in two or three tones of one color. An effective lettering is to have heavily padded satin stitch initials on a firm net or a small designed dotted all over lace. This novelty is more suited to centerpiece and bureau covers than to handsome bed or table linens, which last a long time and should be treated conservatively. Never use flimsy net for a background and make sure it is tightly stitched to prevent pulling or fraying in laundering.

### Architecture.

'Architecture is the art of making four brick walls and sundry partitions look like something else than four brick walls and sundry partitions. As the logicians would say, all houses are houses, but all houses are not created equal. In this climate every man must live in more or less of a house, but the object of architecture is to make one forget that a house is a house, and in that way, to make one forget that one is a human being forced, as other human beings, to conform to the ordinary necessities of life.—Judge.

### How to Clean Silver.

Some housekeepers who do not enjoy cleaning silver may be glad to know of a very simple labor saving device. Place articles to be cleaned in an aluminum dish nearly filled with hot water, in which any mild white soap has been dissolved. Allow them to soak a few moments, then remove and wipe each article carefully with a soft cloth. No one will all discoloreds in the decorated parts, which are often so difficult to clean, will be brightened as if by magic. How to Clean the Inside of Shoes. It is possible to clean the inside of shoes thoroughly, and the process will appeal to neat women. Take an old toothbrush which has been thoroughly cleansed with hot water and washing soda—or a new brush, that matter—wet slightly, soap it enough to make light suds, and with it carefully rub and clean the inside of your shoes. It is not necessary to get them very wet. The chemical action of the soap does the work. Let the suds remain a few minutes, then rinse with the brush in the same way, put the shoes on ventilated shoe trees to dry in the air, and they will be as fresh as a new pair.—Harper's Bazar.

Place articles to be cleaned in an aluminum dish nearly filled with hot water, in which any mild white soap has been dissolved. Allow them to soak a few moments, then remove and wipe each article carefully with a soft cloth. No one will all discoloreds in the decorated parts, which are often so difficult to clean, will be brightened as if by magic. How to Make Coffee. As much care should be taken in making coffee as in preparing any other part of the meal. Use cold water, allowing one heaping teaspoonful of coffee to each cup and one to the pot. Place on fire, let come to a boil, then turn fire low and allow to simmer fifteen minutes, always keeping covered tightly. To settle pour in a little cold water. Matthaeus Sylvaticus established the world's first botanical garden at Salerno, Italy, in 1300.

## HOW TO PREVENT BALDNESS.

Don't Use the Shampoo Too Often. Tight Hats Injurious. Many people overdo the matter of making applications to the scalp, applying strong alcoholic preparations or other so called tonics too frequently. Others with an excess of pains bathe it too frequently, especially with cold water, as is the case with people who take a daily cold shower bath. Others indulge too frequently in the luxury of a shampoo, according to a writer in the Journal of the American Medical Association. While the occasional washing of the hair is beneficial, too frequent applications of water to the hair do harm by withdrawing the natural oil from the hair and scalp. The best authorities advise shampooing the scalp not more frequently than once a week and not less frequently than once a month. Probably nothing better can be used on these occasions than castile soap and warm water. It is a common belief and appears to be well founded that too closely covering the head has a bad effect on the growth of the hair. The stiff hats so commonly worn by men at the present day, which fit so closely about the head and which are worn by many so constantly, it can readily be believed would have a bad influence on the hair. In the first place, the tight binding of the scalp must interfere with the circulation through the scalp and around the hair papillae, and in the second place, the space in the crown of the hat must allow a considerable quantity of air to become heated above the temperature of the body, and this also must have a bad effect on the nutrition of the hair. While a certain amount of sunshine and fresh air is probably beneficial to the hair, on the other hand, it is probably better that the hair and scalp should be protected from constant exposure to the rays of the sun and to the wind and dust. With women the case is somewhat different, but they have their special unhygienic practices which must be mentioned and condemned, especially the curling of the hair by winding it about curling irons or doing it up in curl papers over night. In women, if the hair is found to be cracking at the ends and becoming thin and unhealthy, the ends should be cut off. Most men habitually have their hair cut frequently. Whether this is of advantage or a mistake is not so easily decided. There are good arguments on both sides.

## HOW TO CARE FOR BATTERIES

Terminals Must Be Watched or Motorist Will Have Trouble. One of the greatest causes for the necessity of calling for the aid of the friendly horse in the early days of motoring was the dry batteries employed as the sole means of furnishing the ignition current. Nowadays nearly every car is equipped with a magneto, and the dry cells are used merely in starting the machine. In this capacity they are satisfactory, since the work is merely of an intermittent nature, according to the Auto mobile. A great many motorists have trouble with their dry batteries because they do not give them the proper care and attention. In order to have a current of sufficient amperage and voltage it is necessary to connect several cells in series or in multiple. This is done by means of short insulated wires, which are apt to come loose with a little vibration. If one terminal is partially disconnected the whole battery is practically dead; therefore all connections on the primary circuit must be clean and absolutely bright. Care should be taken to place dry cells in a dry insulated box and to arrange them so that the excessive vibration does not cause them to chafe. A troublesome short circuit may often be traced to this cause.

## How to Clean the Inside of Shoes.

It is possible to clean the inside of shoes thoroughly, and the process will appeal to neat women. Take an old toothbrush which has been thoroughly cleansed with hot water and washing soda—or a new brush, that matter—wet slightly, soap it enough to make light suds, and with it carefully rub and clean the inside of your shoes. It is not necessary to get them very wet. The chemical action of the soap does the work. Let the suds remain a few minutes, then rinse with the brush in the same way, put the shoes on ventilated shoe trees to dry in the air, and they will be as fresh as a new pair.—Harper's Bazar.

## A SUBSTANTIAL COLONIAL.

Design 933, by Glenn L. Saxton, Architect, Minneapolis, Minn.

PERSPECTIVE VIEW—FROM A PHOTOGRAPH.

FIRST STORY PLAN. SECOND STORY PLAN.

In this house the living-room and parlor are divided with a wide columned opening. I would suggest, if any one desires, this space can all be made into one large living room, and the vestibule can be left out entirely or can be built the entire size of same on the piazza, thus leaving the living room with regular lines inside. The dining room in this residence is finished in quarter sawed oak, with a beamed ceiling and a large sideboard across the rear. This room is made very pleasant by a projecting bay window, back of which is a small conservatory which can be used for a den or sewing room. There is a combination open stairway to the second story; also a rear entrance to the basement leading from the entry. The ice can be put in the refrigerator in the pantry from the outside. This house has a grand piazza covering the entire front and part of one side, which is ten feet wide, and if any one desires there can be a sleeping porch or sun room built across the entire rear over the first one story part. The second story has four good chambers and an unlimited amount of closet space, large bath and a hall. There is a full basement under the entire house. The finish in first story is planned for oak throughout with oak floors, second story pine to paint or Washington fir. First story is nine feet high, second story eight feet, these heights being in the clear, and there is also space in the attic for two or three rooms. The size of the house is 28 by 30 feet. Cost to build, exclusive of heating and plumbing, \$3,850. Upon receipt of \$1 the publisher of this paper will supply a copy of Saxton's book of plans entitled "American Dwellings." The book contains 240 new and up to date designs of cottages, bungalows and residences costing from \$1,000 to \$6,000.

## "THE CITY PRACTICAL"

Business Competition So Sharp It Must Be Provided For. "Some of the big cities of the country and many more of the second rank are seriously entering upon a comprehensive plan which will result not only in a city beautiful, but also a city practical and a city sensible," said Representative W. P. Borland addressing the City club of Kansas City, Mo. Competition between cities is becoming keen, and the one that offers the best advantages for homes and business will get the population and trade. A civic center formed by the grouping of important public buildings might be part of the plan. They would also include a topographical survey of the city area and the outlying lands to determine the best routes of traffic, the easiest grades for ingress and egress and the best location for factories and terminals. Business is necessary to make the city grow, and homes are needed to make it attractive. Too many people have to live too far from their work and pay a daily tribute to the street cars for the privilege of toiling. They do this because sufficient decent and attractive homes cannot be found near to business. Clean and pretty side streets should be found within walking distance of parks, playgrounds, schools and business.

## RID CITY OF TIN CANS.

Children of Kansas Town Claim Bounty For Good Work. The boys and girls of Hill City, Kan., have recently cashed in for ridding the city of more than 33,000 tin cans and other pieces of scrap. City Marshal Yerkes has been busy getting rid of the rubbish. More than thirty large loads have been hauled away, and cleaner conditions prevail. He hit upon the novel scheme of paying the boys and girls of the city 5 cents for every hundred pieces brought to the wagons from the alleys of the town. A draw runs through the center of the city and has long been known as the "trail of the tin can." Although the name may still stick, the cans have disappeared, and it is no longer used as a place to haul junk. Early Printing In New York. Printing presses were forbidden in the province of New York by royal authority in 1688. On March 25, 1693, printing was ordered to be introduced, and William Bradford was appointed public printer.

## How to Keep Cream Fresh.

To keep cream fresh and sweet heat it almost to a boiling point, put it in a glass bottle, cover and set aside to cool. Cream thus treated will keep sweet and fresh for several days in moderate weather and over the second day in warm weather. CLEANLINESS. Cleanliness is next to godliness. What an ideal world this would be if cleanliness were the rule everywhere and in everything—clean houses, clean streets, clean bodies, clean hearts, clean accounts and clean characters! If you know of any unclean spots, wipe them out.

## It is Time to Order Your Spraying Materials

We sell Bowker's Pyrox, Arsenate of Lead and Lime Sulphur. Can furnish a spraying outfit for four dollars up. One No. 1 Standard Cyphers Incubator. One Old Trusty 800 Egg Incubator. Both second hand but in first-class condition. C. D. MORSE Waterford, Maine

## THE KEELY INSTITUTE

Oldest and Best Known Institution in Maine for Treatment of Liquor and Drug Addictions. Dr. T. B. Morrissey, Manager and Physician-in-Charge.

What is known as the "Keely Cure" for Liquor and Drug using was discovered by Dr. Leslie E. Keely of Dwight, Illinois, more than a third of a century ago. Since that time the Keely Treatment for Liquor, Opium and Nervous Diseases has been constantly and successfully administered through the medium of Keely Institutes, one or more of which are located in nearly every State of the Union, Canada, England and Mexico.

The Keely Treatment was established in Maine over twenty years ago; its success was immediate and continuous and its permanency and stability as an institution has been fully established. The Maine Keely Institute has, for the past fifteen years, been located at 151 Congress St., Portland, Maine, on Munjoy Hill, in a building where modern conveniences and accommodations tend to increase the comfort of the patients. This Institute—the only one in the State—is the oldest and best known institution in Maine for the treatment of liquor and drug addictions. Since its establishment a small army of men and women have been cured here and restored to health, family and earning capacity. For many years the Institute was under the management of Mr. J. I. Lovett, who retired in July, 1911, having disposed of his interests to Dr. T. B. Morrissey, who has since been Manager and Physician-in-Charge. For a number of years previous to August, 1906, Dr. Morrissey was the Physician-in-Charge at this Institute and is personally acquainted with a large number of the former patients of this Institute.

Dr. Morrissey is a graduate of Rush Medical college, of the University of Chicago, and is a licensed practitioner on the State of Maine. His entire time for more than twelve years has been devoted to the study and treatment of liquor and drug addictions. During this time he has been connected with some of the largest Keely Institutes in the United States and Canada, and has been a member of the medical staff at the parent Institute, Dwight, Illinois. For four years previous to his coming to Portland, he was in charge of the Keely Institute at Salt Lake City, Utah. He is a specialist in the treatment of drug and disease conditions resulting from the use of liquor, opium, morphine, cocaine and other narcotic drugs.

It is an established fact that the Keely Treatment continues to be recognized by the public as the best, successful treatment for the diseases before mentioned. Imitators pay high, though unwonted, tribute to the Keely Cure in their constant recognition of it by comparison of their treatments to it, thus giving it precedence as the best standard. All concede that it is the best known and most widely used of any, and so fully identified with the name of Keely has the treatment for liquor and drug addictions become that many people assume that every establishment where such treatment is administered must be a Keely Institute.

This is a mistake and sometimes has worked to the disadvantage of the Keely Treatment. There is one unfailing test, no Keely remedies are administered anywhere except in establishments authorized by The Leslie E. Keely Company of Dwight, Illinois, and known by the uniform name of The Keely Institute. There is no exception to this rule. The Keely Treatment, in four weeks' time, relieves drug patients from all craving, appetite and necessity for alcoholic stimulants. Users of opium, morphine, cocaine, laudanum and other narcotic drugs are relieved in from four to six weeks.

At all Keely Institutes the hypodermic method of treatment is constantly used, which, according to all reputable physicians, is painless, prompt and efficient. Under the Keely system of treatment there is no nausea or sickness of any kind, and no nauseous, emetics or other irrational methods are ever employed. The Treatment cures by restoring the system to a normal condition, and removes all craving, desire or necessity for liquor or drugs.

Street cars from all depots and steamer landings connect with the Munjoy Hill car, which runs direct from the Union Station To the Keely Institute, 151 Congress St., Portland, Me. All correspondence is strictly confidential.

## DENMARK.

Mrs. Molly Pligree is having an ill turn. A. H. Witham also is poorly and had the doctor Saturday evening. He gets out a little.

Elwood Pligree has sold some pine timber to Mrs. Sanborn and drawing it to Mr. Sanborn's mill. Lots of timber is being hauled to the mill and lots of wood is being drawn by the farmers. The gasoline engines are saving it.

Friday, while a young lady driving C. E. Cobb's team from the hotel, she took the scholars to the high school building, was turning the team, the horse turned too short and left the young lady in the snow and she had to walk home. The horse made quick time to the stable. Fortunately no harm occurred.

## EAST STONEHAM.

Mrs. Charles Brown is improving. Charles Chaplin is hauling hay from Charles York's in Albany.

Brown tail moths are abundant in this vicinity. George Brown and Will Decker are hunting them.

F. H. Bartlett has been ill with a bad cold, and three of his children. They are all improving at the present writing. Mrs. Lucie McAllister and Mrs. Esther Decker spent the afternoon, Friday, with Mrs. Albert Kendall and Mrs. Bert Kendall at Lovell.

## TREE SURGERY AS A FINE ART

Its Incalculable Value In Specific Instances.

### OBVIATES OLD DIFFICULTIES.

Cheaper to Employ Experts Than to Let Neglect Force Use of the Ax and Impose Avoidable Expense Upon the Community.

In a moderate sized city in the middle west, relates L. G. Vair in the American City, the mayor was discussing with the superintendent of parks the beauty of a large elm tree that rose to sturdy height in the most noticeable portion of the principal park. The spread of the branches was more than 100 feet and the lower of these, hanging pendant, swept the blue

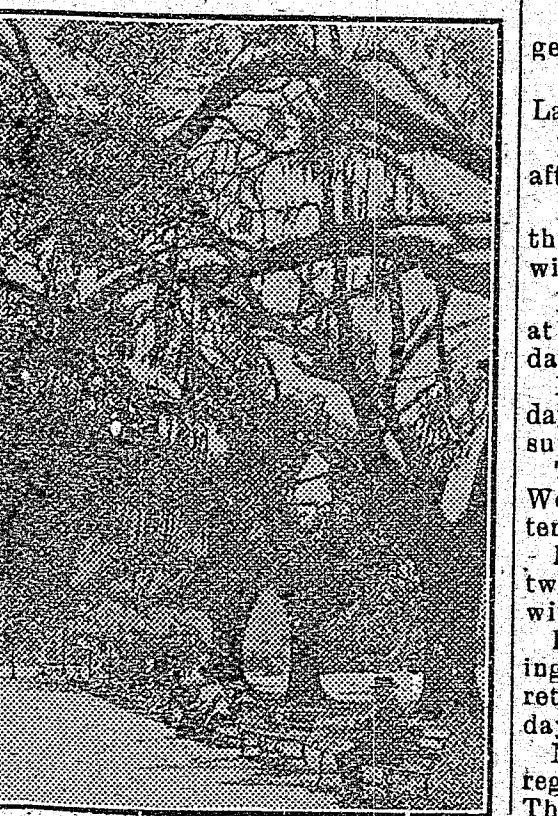

A TREE AFTER TREATMENT.

grass lawn as they gracefully yielded to the will of the spasmodic breeze. "It seems to me," said the mayor, "that \$5,000 would be modestly representing the value of that one tree to this city."

"Yes," was the reply. "You are right, yet I am much worried for fear the tree will lose it soon. There is a great split, as you can see, where the trunk separates into all those large arms or branches. After every rain water seeps out at the bottom of that crack, which has caused the whitish streaked appearance of the bark that you notice. We never have a severe storm without losing at least one of the trees in the parks, because it is rent asunder where a split, similar to that one, has been."

In the course of time an estate owning friend of the mayor mentioned in a letter to him that he was having "tree surgery" to save the fine trees about his house and along his drives. Following an investigation some "tree surgeons" were engaged by the city to save the elm, the end of which had seemed so assured. Not only that tree but many other important ones were given into the skillful care of the surgeons. Each year since that city has had as many additional trees treated and saved by those experts as appropriations would permit. It is cheaper, far cheaper, for any city as it was for that city to secure the services of competent tree surgeons and thus save its park and street trees than to neglect them until they die or must be cut down for reasons of public safety.

Citizens of Quincy, Ill., worried over the decline of their park trees until

AUDUBON PARK, NEW ORLEANS.

competent tree surgeons came and gave to all the old park trees a new lease of life. The parks of New Orleans offer a good contrast between trees properly cared for and trees improperly treated. In Audubon park especially many of the trees have been "filled" with cement in a way which is now commonly known to be harmful—that is, with the filling put in over the bark. It will be well to bear in mind at ways that tree surgery is not a branch of forestry nor of the landscaping or nursery business. It is a distinct science requiring special preparation and much actual experience.

An Appeal. A series of postcards, being reproductions of photographs of children before and after playgrounds were opened, has been issued by the Playgrounds Association of Philadelphia as a means of extending its campaign for the benefit of "Young America."

NORWAY LAKE. The Mothers' club will have a supper at their hall Saturday night, Feb. 24.

## Spring Merchandise

Every day we are adding to our attractive display of Spring merchandise. Every department is teeming with the spirit of the new Spring Season. The styles and fabrics are the prettiest we have ever shown. All of our merchandise is up to the minute in every detail and backed by the "Smiley Guarantee of Satisfaction."

### SOUTH HIRAM.

Emma Fox spent Friday night with Erma Spring.

Lorin Spring was fortunate enough to get a nice black duck, Friday.

Mrs. Alice Merrifield entertained the Ladies' Aid, Tuesday afternoon.

Mrs. Jennie Spring spent Saturday afternoon with Mrs. Lewis Gould.

Leon Gilpatrick and Ora Brazier spent the week-end with Eben Gilpatrick and wife.

Nathan Sanborn of West Baldwin was at Eugene Stanley's on business, Thursday.

Mrs. Ora Brazier was the guest, Thursday night of "Mrs. Mabel Stanley for supper."

The ladies' circle gave their supper, Wednesday night, and it was largely attended.

Mr. and Mrs. Harry Huntress and two children spent Sunday afternoon with Simon Stanley and wife.

Fran Merrifield, who has been visiting her mother, Mrs. Eliza Merrifield, returned to her home in Bridgton, Saturday.

Neola Council, No. 14, at their last regular meeting took in four candidates. This order is in quite a flourishing condition.

Mrs. Ethel Libby and Mrs. George Howard, also Clinton Wood and wife were guests of Mrs. S. L. Spring, Wednesday.

George Pierce out one of his horses very badly, Saturday. It is feared he will not be able to do much more work with him this winter.

Michael Garrity, who has been working for Francis Gilpatrick in the woods, was hurt very severely, last Thursday. Monday, he was taken to the Maine General Hospital in Portland.

### KEZAR FALLS.

Mrs. J. C. Emery has returned from a visit to South Portland.

Thomas Mason of Rockport, Mass., is visiting friends in town.

The ladies' circle held a baked bean supper at the K. of P. hall, Wednesday evening.

Florence Hughes of Portland, who has been the guest of Mrs. Isaac Stanley, returned home, Saturday.

Temperance Day was observed Sunday at the M. E. church and a very able sermon preached by the pastor, Rev. Mr. Hughes.

Thomas C. Randall, our oldest citizen, passed away, Friday, Feb. 9, at the age of ninety-five years. Mr. Randall was born in Effingham, N. H., but lived in

Kezar Falls all his life. He was a member of the Baptist church of Parsonsfield and was clerk of that church for many years. He will be missed in the community. Services were held, Sunday in the M. E. church, Rev. Cymbrid Hughes officiating.

#### NORWAY AND VICINITY

**Norway Boy Promoted.**  
B. Frank Faunce, son of Frank W. Faunce of this town, has been promoted to the position of assistant superintendent of the wheel department of the Homestead Steel Works, Homestead, Pa. Mr. Faunce is a graduate of the University of Maine and for a greater portion of his time since leaving school has been connected with the Homestead Steel Industries. He has rapidly risen in his profession of mechanical engineering and has contributed several valuable patents to the company.

For the last few years he has concentrated his attention on the wheel department, having invented machinery which presses out a car-wheel at one operation. The department over which he now has charge turns out \$20,000 worth of work each day, or more than \$8,000,000 worth a year.

Mildred Holmes recently gave a "sleigh ride and snow-shoe party" at the home of Mrs. Whitney Buck on Crockett Ridge. The party was conveyed to the farm by Clarence Buck in his two horse sled. Mrs. Buck had an excellent oyster supper in readiness for the party upon their arrival. A very pleasant evening was enjoyed with games and music and at a very late hour the party started for the village over field, hill and valley on snow shoes, arriving home in the early hours of the morning after spending a most enjoyable outing.

#### HE WON'T LIMP NOW.

No more limping for Tom Moore of Cochran, Ga. "I had a bad sore on my instep that nothing seemed to help till I used Bucklen's Arnica Salve," he writes, "but this wonderful healer soon cured me." Heals old, running sores, ulcers, boils, burns, cuts, bruises, eczema or piles. Try it. Only 25c at The Noyes Drug Store. 5-8

#### A Crop Bulletin.

Five-year-old Ella had been enthusiastically engaged in garden work all the spring. She was especially interested in planting seed and watched anxiously for sprouts to appear above the ground.

One day while visiting a neighbor who possessed a six-months-old baby Ella was delighted to see two tiny front teeth displayed when the baby smiled.

"Oh, Mrs. May," the little girl cried excitedly, "the baby's teeth have come up!"—Youth's Companion.

#### For Dyspepsia.

You-Risk No Money if You Try This

We want everyone troubled with indigestion and dyspepsia to come to our store and obtain a box of Rexall Dyspepsia Tablets. They contain Bismuth-Subnitrate and Pepsin carefully combined so as to develop their greatest power to overcome digestive disturbance.

Rexall Dyspepsia Tablets are very pleasant to take. They tend to soothe the irritable, weak stomach, to strengthen and invigorate the digestive organs, to relieve nausea and indigestion, thus promoting nutrition and bringing about a feeling of comfort.

If you give Rexall Dyspepsia Tablets a reasonable trial we will return your money if you are not satisfied with the result. Three sizes, 25 cents, 50 cents, and \$1.00. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store, F. P. Stone, 143 Main St., Norway, Me.

#### A Big Claim.

"He's got a lot of nerve, hasn't he?" "I should say. Knows the art of bluffing his creditors, doesn't he?" "Bluffing his creditors! Why, man, he claims he can bluff his wife!"—Toledo Blade.

#### Warrant for Town Meeting.

To F. W. Sanborn, a citizen of the town of Norway, in the County of Oxford and State of Maine, Greeting:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town of Norway, qualified by law to vote in town affairs, to assemble at Norway Hall in said Norway, on Monday, the fourth day of March next, at 10 o'clock in the forenoon to act on the following articles, to wit:

- Art. 1. To choose a Moderator to preside over said meeting.
- Art. 2. To choose a Town Clerk for the ensuing year.
- Art. 3. To see if the town will vote to elect one member of the Board of Selectmen for one year, one member of the Board of Assessors for one year and one member of the Board of Overseers of the Poor for one year, one member of each of the three above named boards for two years, and one for three years, and at each annual meeting hereafter to elect one member of each of said boards for a term of three years.
- Art. 4. To choose a Board of Selectmen, Assessors, Overseers of the Poor, a Town Treasurer, a Town Agent, a Member of the Board of Superintending School Committee for three years, two trustees of the Norway Public Library, a Tax Collector, a Road Commissioner or Commissioners, and all other necessary town officers for the ensuing year.
- Art. 5. To see if the town will vote to exempt the taxes against Mrs. J. E. Budden.
- Art. 6. To see if the town will vote to abate the taxes assessed against the heirs of W. S. Pratt for the years 1911 and 1912.
- Art. 7. To see what per cent the town will vote to pay for collecting taxes for the ensuing year.
- Art. 8. To see what sum of money the town will grant and raise for the support of the poor for the ensuing year.
- Art. 9. To see what sum of money the town will grant and raise to pay interest charges for the ensuing year.
- Art. 10. To see what sum of money the town will grant and raise for town officers' salaries for the ensuing year.
- Art. 11. To see what sum of money the town will grant and raise for the repairs of highways and bridges for the ensuing year.
- Art. 12. To see if the town will vote "yes" or "no" upon the adoption of the provisions of Chapter 112 of the Public Laws of Maine, for the year 1907, as amended by Chapter 69, Public Laws of 1909, also Chapter 21, Public Laws of 1911, and Chapter 183, Public Laws of 1911, relating to the appropriation of money necessary to entitle the town to state aid for highways for the year 1912.
- Art. 13. To see if the town will raise and appropriate in addition to the amounts regularly raised and appropriated for the care of ways, highways and bridges, the sum of \$550.00 being the maximum amount which the town is allowed to raise under the provisions of Chapter 112 of the Public Laws of Maine for the year 1907, as amended by Chapter 69, Public Laws of 1909, also Chapter 21, Public Laws of 1911, and Chapter 183, Public Laws of 1911.
- Art. 14. To see what sum of money the town will grant and raise to pay snow breaking bills of the winter of 1911 and 1912.
- Art. 15. To see what sum of money the town will grant and raise for the support of the common schools for the ensuing year.
- Art. 16. To see what sum of money the town will grant and raise to be expended for free text books for the ensuing year.
- Art. 17. To see what sum of money the town will grant and raise for repairs on school buildings for the ensuing year.
- Art. 18. To see what sum of money the town will grant and raise to be expended for insurance on school property, and for apparatus and appliances for the ensuing year.
- Art. 19. To see if the town will instruct its Superintending School Committee to continue to insure any but Village and Lake school property.
- Art. 20. To see what sum the town will grant and raise for rent, light and heat of an office for the Superintendent of Schools.
- Art. 21. To see what sum of money the town will grant and raise for the support of a free high school for the ensuing year.
- Art. 22. To see if the town will instruct the Superintending School Committee to maintain a school in Milletville neighborhood for the ensuing year.
- Art. 23. To see what sum of money the town will grant and raise for instruction in music and drawing in common schools of twenty-five pupils or more for the ensuing year.
- Art. 24. To see what sum of money the town will grant and raise for instruction in music and drawing to district schools of less than twenty-five pupils for the ensuing year.
- Art. 25. To see if the town will instruct the Superintending School Committee to maintain a school on Frost Hill for the ensuing year.
- Art. 26. To see if the town will vote to authorize its Superintending School Committee to join either or any of the following towns, to wit: Oxford, Otisfield or Waterford, for the purpose of employing a superintendent of schools in accordance with the provisions of Section 40 to 45 inclusive, of Chapter 15 of the Revised Statutes.
- Art. 27. To see what sum of money the town will grant and raise for the support and maintenance of the Norway Public Library for the ensuing year.
- Art. 28. To see if the town will vote to authorize its Superintending School Committee to join either or any of the following towns, to wit: Oxford, Otisfield or Waterford, for the purpose of employing a superintendent of schools in accordance with the provisions of Section 40 to 45 inclusive, of Chapter 15 of the Revised Statutes.
- Art. 29. To see if the town will vote to allow the heirs of the late Samuel P. Frost such taxes as may be assessed upon the property of his estate, if they shall keep the road leading from the house of the said heirs by the house of Mason F. Frost, in a suitable condition of repair for the ensuing year.
- Art. 30. To see if the town will vote to fix a date when all taxes for the year A. D. 1912, shall become due and payable to the collector.
- Art. 31. To see if the town will vote to charge interest and at what rate, and at what time interest shall commence on taxes not paid.
- Art. 32. To see what sum of money the town will grant and raise to protect the town from moth pests.
- Art. 33. To see if the town will vote to have all poll taxes assessed in the year 1912, made payable July 1st, 1912.
- Art. 34. To see what sum of money the town will grant and raise for rent of hall and other incidental expenses.
- Art. 35. To see what sum of money the town will grant and raise to clear the highway of bushes for the ensuing year.
- Art. 36. To see what sum of money the town will grant and raise to replace small plank bridges with stone bridges for the ensuing year.
- Art. 37. To see what sum of money the town will grant and raise for building and repairing, or aiding in building and repairing of sidewalks for the year ensuing; and to see if the town will take any other action having reference to sidewalks.
- Art. 38. To see if the town will vote to purchase one or more snow rollers.
- Art. 39. To see if the town will vote to authorize the selectmen to purchase one or more gravel pits.
- Art. 40. To see what sum of money the town will grant and raise for a contingent fund for the ensuing year.
- Art. 41. To see if the town will vote to elect a committee of citizens, representing all sections of the town, to serve without pay, said committee to include the selectmen, treasurer, road commissioner and superintendent of schools, which committee shall investigate and consider all parts of the town warrant, especially those calling for appropriations, make recommendations concerning each and submit a report to the next annual town-meeting.
- Art. 42. To see if the town will vote to discontinue the old road in Milletville leading from the schoolhouse to where the new road comes in at the southwest corner of the J. H. Millett orchard.
- Art. 43. To see if the town will vote to continue the same arrangements in regard to the taxes on the Norway Shoe Shop Co., property as in the past.
- Art. 44. To see if the town will authorize the municipal officers to sell and execute conveyances of real estate acquired by the town by means of tax deeds.
- Art. 45. To see if the town will vote to accept the list of jurors as prepared by the Selectmen, Town Treasurer and Town Clerk.
- Art. 46. To see if the town will vote to accept the highway as laid out by the selectmen, Feb. 7, 1912, on petition of H. E. Gibson and others, and provide means to build the same.
- Art. 47. To establish the price that the road commissioner or commissioners shall receive for services.
- Art. 48. To see if the town will vote to accept the sum of \$300.00 bequeathed to the town of Norway in the will of Milton H. Merriam to care for his burial lot in Norway Center cemetery.
- Art. 49. To see if the town will vote to instruct the selectmen to lease of the Norway Building Association for town purposes the hall, armory, assessors' office and basement at present used by the town for a term of ten years from expiration of the last lease.

The Selectmen give notice that they will be in session at the Assessors' office for the purpose of receiving names and correcting the list of voters, on Saturday, the 21 day of March, 1912.

Given under our hands this 18th day of February, A. D. 1912.

GEO. W. HOLMES, Selectmen  
A. J. MILLETT, of Norway.  
W. A. HERSEY,

A true copy attested: F. W. SANBORN, publisher of the Norway, [Me.] ADVERTISER.

#### Board of Trade Banquet.

The first annual banquet given by the Norway Board of Trade was held Friday evening at the Hotel. A few minutes past eight the members of the Board of Trade, the business men of Norway and fellow citizens to the number of 120 took seats about the festive board in the spacious dining hall and partook of a delicious five course dinner which included mulligatawny soup, fried scallops, roast turkey, creamed potatoes, lobster salad, ice cream, cake, coffee, fruit and cigars. The dinner was served by a corps of 14 young ladies including Lona Noble, Mrs. Harry Mann, Mrs. Bertram Goldwaite, Mae Emerson, Henrietta Pooler, Mrs. Wiggins L. Merrill, Mrs. Ernest Jackson, Mrs. Guy Emery, Bernice Nash, Mrs. Maude DeCoster, Ora Cook, Alida Bailey, Gladys Mains, and Mrs. E. M. Bailey.

Music was furnished during the evening by Stearns' orchestra. The dinner arrangements were in charge of W. S. Conrad, proprietor of the Hotel. At 10 o'clock the postprandial speeches were in order. The toastmaster, Col. A. J. Stearns, extended a cordial welcome to the guests present in behalf of the president, and called on E. N. Swett for a few brief remarks representing the members of the Board of Trade. In brief he told of his pleasure at being present and listening to the evening's program. He said that Norway had been his home for many years. He had travelled in 40 of the states and stopped in many of them for different lengths of time. In 1888 he went west with the purpose of locating but upon his return, "good old Norway" he was determined to make this his home the remainder of his life.

The officers of the Board of Trade are: President, Fred E. Smith; vice president, E. N. Swett, Geo. L. Curtis, W. C. Leavitt; secretary and treasurer, F. E. DeCoster; executive committee, A. J. Stearns, H. B. Foster, H. D. Young, Lee M. Smith, W. S. Jones, and J. W. Naab, taxidermist, and the W. F. & E. B. Tubbs snowshoe business, B. F. Spinney & Co., etc.

Leslie E. McIntire of Waterford, president of the Maine State Fairing Association, had an encouraging word to offer the citizens of Norway in behalf of the association, saying that the members of the association were thoroughly pleased with the hospitality shown them at their meeting here last December, and that the word gone out was, "We were never in a place before where everybody had a good word for everybody else." In the course of his speech he spoke of farming as an industry and urged for the education of the young men in the different agricultural colleges.

Don C. Seitz of New York was called upon who responded in a very pleasing manner. He spoke of his pleasant reminiscences in Norway, his home town, and told of his associations here. In the course of his speech he spoke of farming and was glad to be classed among the farmers, and said that through the farm the village of Norway, which is an ideal farming and orcharding district, ought to reap the benefits. The farmers should be raising a big amount of farm products, including hay, grain, bran, corn, vegetables, beef, etc., which today it is necessary to send to the West for. By raising these essentials the economy of money which is annually sent out of town would remain among the farmers and the town as a whole would be greatly benefited. The farmers here can raise these products just as well as the farmers in other states and by education and push this can be done, and done to great advantage. The town is now dependent and need not be. Find out how much produce is needed and get the farmers to produce the amount required for the town's consumption and the community will be enriched. In closing he said that he was trying to point out a way to meet the cost of living and secure a good substantial future for the people.

V. W. Canham responded to the call of the toastmaster with several well chosen humorous stories and spoke of the good of such a gathering.

Rev. R. J. Bruce spoke briefly on religion as belonging to the place of business as well as to the church. He said that he was glad to be a minister of the Gospel and took pride in signing his name as Reverend and was not ashamed of the profession he had chosen; honesty and purity are essential to all business, and all business men should help promote them.

Frank Kimball was called upon to make a few remarks on the social side of life in Norway. He enumerated the various societies, organizations, clubs and sports which are of interest to the people of Norway, proving it a pleasant place to reside in.

Rev. B. C. Wentworth was called on for a story. Mr. Wentworth is noted for his witty stories and the one he told concerning "Lincoln" was said to have no money to offer the "and in view" called a loud applause.

H. L. Horne, a member of the school board, spoke on the work in the schools. Among other things he said there is need of more room at the high school building and the need is becoming more pressing each year. He also suggested that a practical course in agriculture and a commercial course be added to the

## TESTIMONY OF FIVE WOMEN

Proves That Lydia E. Pinkham's Vegetable Compound Is Reliable.

Reedville, Ore.—"I can truly recommend Lydia E. Pinkham's Vegetable Compound to women who are passing through the Change of Life, as it made me a well woman after suffering three years." — Mrs. MARY BOGART, Reedville, Oregon.

New Orleans, La.—"When passing through the Change of Life I was troubled with hot flashes, weak and dizzy spells and backache. I was not fit for anything until I took Lydia E. Pinkham's Vegetable Compound. It not only proved worth its weight in gold to me." — Mrs. GASTON BLONDEAU, 1541 Polymnia St., New Orleans.

Mishawaka, Ind.—"Women passing through the Change of Life can take nothing better than Lydia E. Pinkham's Vegetable Compound. I am recommending it to all my friends because of what it has done for me." — Mrs. CHAS. BAUER, 523 E. Marion St., Mishawaka, Ind.

Alton Station, Ky.—"For months I suffered from troubles in consequence of my age and thought I could not live. Lydia E. Pinkham's Vegetable Compound made me well and I want other suffering women to know about it." — Mrs. EMMA BALLEW, Alton Station, Ky.

Deism, Mo. Dak.—"I was passing through the Change of Life and felt very bad. I could not sleep and was very nervous. Lydia E. Pinkham's Vegetable Compound restored me to perfect health and I would not be without it." — Mrs. F. M. THORN, Deism, Mo. Dak.

#### NORTH LOVELL.

Lyman Hilton is sick with tonsillitis. Clinton Andrews is working for Amos McKee.

Mrs. Fannie McAllister has been on the sick list.

Willis McKee has filled C. A. Garcelon's ice house.

Mertie Adams has visited at Mrs. Susie Gammon's.

Fred Harriman of Norway was calling on friends here, Monday.

M. F. McAllister of Norway was at G. P. McAllister's several days.

Mrs. Emma Wilson is poorly, does not sit up only a part of the time.

Mr. G. H. McAllister has been at home sick with the prevailing cold.

The Library club met with Mrs. Edgar McAllister, Thursday afternoon.

Charles Grey of Centar Fryeburg called on Perley McKee, Thursday.

Marshall Evans is quite well again, goes out driving and does all his chores.

Mrs. Seth Harriman has gone to the Maine General hospital, Portland, for treatment.

S. D. Wilson is putting in pine timber. Frank Cheneau is cutting it. Isaac Hobbs are cutting it and Eldon McAllister is hauling it to the Lake.

#### FRYEBURG.

Samuel Evans has been in Boston on a business trip.

Ruth Barnes of Intervale was a recent guest of Bertha Warren.

Mrs. John Gerry of Lewiston has been a guest of Dr. and Mrs. Harris.

Mrs. James Dearing has been taken to the C. M. G. hospital, Lewiston, for an operation.

Mrs. Fannie Waterman has returned from the St. Barnabas hospital much improved. Annie Gordon accompanied her home.

One of the water pipes on Southland street burst and there was much trouble to fix it. A disagreeable rumbling was heard in some of the houses on account of the break.

Mr. and Mrs. T. L. Eastman are away on a little trip. Mr. Eastman went to New York and Mrs. Eastman will visit her daughter, Mrs. George Dunn, at South Framingham, Mass.

## CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of *Dr. J. C. Watson*

Free if It Fails.

Your Money Back if You are Not Satisfied with the Medicine We Recommend.

We are so positive that our remedy will relieve any case of constipation, no matter how chronic it may be, that we offer to furnish the medicine at our expense should it fail to produce satisfactory results.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxatives or cathartics do much harm; they cause a reaction, irritate, and weaken the bowels and tend to make constipation more chronic. Besides their use becomes a habit that is dangerous.

Constipation is caused by a weakness of the nerves and muscles of the large intestine or descending colon. To expect permanent relief you must therefore tone up and strengthen these organs and restore them to healthier activity.

We want you to try *Castoria* on our recommendation. They are exceedingly pleasant to take, being eaten like candy, and are ideal, for children, delicate persons, and old folks, as well as for the robust. They act directly on the nerves and muscles of the bowels. They apparently have a neutral action on other associate organs or glands. They do not purge, cause excessive looseness, nor create any inconvenience whatever. They may be taken at any time, day or night. They will positively relieve chronic or habitual constipation, if not of surgical variety, and the myriads of associate or dependent chronic ailments, if taken with regularity for a reasonable length of time.

Tablets, 10 cents; 26 tablets, 25 cents; 50 tablets, 50 cents. Sold in Norway only at our store—The Rexall Store, F. P. Stone, 143 Main St., Norway, Me. 8

**"EDUCATED CABBAGE."**

Advice on Growing Vegetable So Described by the Late Mark Twain.

Cauliflower requires a rich, moist soil and thrives best under irrigation. Cauliflower will not withstand as much frost as cabbage. The culture is the same as for cabbage until the heads begin to develop, after which the leaves may be tied together over the heads in order to exclude the light and

FINE HEAD OF CAULIFLOWER.

keep the heads white, says a recent bulletin of the United States department of agriculture.

The tender heads of cauliflower are boiled and served with butter or creamed and are also used for pickling.

Cauliflower seed, formerly produced almost entirely in Europe, is now grown in commercial quantities in the vicinity of Puget sound, Washington, and a few other localities in the United States. There are several varieties of cauliflower, but without marked differences among them. Some growers consider Early Dwarf Erfurt and Snowball, two of the best. A late maturing and hardy form of cauliflower is known as broccoli.

Lovers of cauliflower are fond of recalling Mark Twain's definition of the vegetable as "cabbage with a college education."

## Law Points For the Farmer.

The laws of most of the states say that farmers shall cut the weeds that grow on the public highway alongside the farm, or the township may do it at the land owner's expense.

Statutes which allow the owner of land sold for taxes to redeem on prescribed conditions are liberally construed in favor of the right to redeem.

Gibson Versus Dekarek, S. Dak. 131 N. W., 728.

Parties may agree on the value of property to be shipped by express and limit the express company's liability to the agreed valuation, provided the agreement is fairly made on a good consideration—Adams Express Company Versus Beyers, Ind. 95 N. E., 513.

A person approaching a railroad crossing has a right to expect that the railroad company will give the statutory crossing signal, but the failure of the company in this respect will not absolve such person from the exercise of care commensurate with the danger of which he is bound to take notice by reason of the fact that it is a railroad crossing—Toledo, etc., Railroad Company Versus Lander, 95 N. E., 319.

Better Than a "Boughten" Popper.

Here is a homemade corn popper that beats the "boughten ones." Take a piece of heavy wire about three-sixteenths of an inch in diameter and about seven feet long. Double it and twist the wire from the middle to within nine or ten inches of the end, then spread and bend like A in the picture. Take a half gallon sirup pail, punch holes in the center of the ends to receive the wire and perforate the pail with small holes. Bend the ends of the wire so that they are long enough and must be sprung a little to be put on. Spring your handle on, and your popper is complete. In use simply roll it on the stove, and it works fine and does not burn the corn—Farm and Fireside.

## Orchard and Garden.

Sweet potatoes should be dried and stored in boxes of sand before the frost touches them.

Get ready to do some grafting in 1912. Top work that old seedling apple tree. The cherry comes first, then plum, apple, quince and pear.

In storing potatoes handle them carefully. Bruised potatoes will eventually rot and cost you a great deal of money through lack of a little thoughtfulness.

Balsams show to best advantage when they are pruned to a straight stem. Pinch off every side branch and the single stalk left will be completely covered with a mass of bloom.

Rome destroyed Carthage during the three Punic wars, which began in 246 B. C. and closed in 146 B. C.

**FROM THE TROPICS TO HEALUS.**

**Cedron Seed Plant.**

In Central America many natives are gathering the seeds of this plant, Cedron Seed, a rare medicine that has valuable curative powers. But few drug stores carry this seed, owing to the high cost of the article.

This country is a large consumer of this costly seed because it enters into the famous catarrh remedy, Peruna, sold the world over.

**BRYANT FOND.**

A Visit to the South.

Mrs. E. J. Thompson returned Feb. 10, from a ten weeks trip through the southwest.

On her way, going, she visited her daughter in Boston, friends in Winthrop, Malden, Somerville and Melrose, Mass.

On Dec. 15 she joined a party of friends at Cumberland, Md. from Vista, Va., and together they went to Davis, West Virginia, where she spent several weeks visiting a daughter and friends there.

Davis, West Virginia, is a plateau on the extreme top of the Alleghy mountain, 3300 feet above sea level, is 85 miles from Cumberland, Md., 234 from Pittsburgh, Pa., 255 from Baltimore, 349 from Philadelphia and 439 from New York City.

Davis was named after its founder, Hon. H. C. Davis, was founded in 1885, first railroad came into town in 1889. The new railroad was called the West Virginia Central, constructed from Piedmont up the north branch of the Potomac river. Town was incorporated Dec. 10, 1889.

Davis is composed of a cosmopolitan population of 4000, has a pulp mill which employs several hundred men, a large leather tannery, and the Babcock & Lumber Co. has two large mills which employ a thousand men. This plant was formerly owned and operated by Dr. A. Thompson, now of Philadelphia, whose summer home is at Norway Lake, in Norway, Me. Davis also is rich in coal mines. It is estimated that those mountains have coal enough to last 100 years. This means that natural gas is used exclusively for heating and lighting purposes in the houses, but electrical system is used for lighting the street.

The town has a 12-roomed high school building and takes care of 500 students; two hotels, one bank, one hospital and ten churches and is well supplied with stores.

**BETHEL.**

Susan Carter is visiting her sister in Boston.

Lula Cummings is working at Dr. I. E. Wright's.

A Leap Year ball will be given at Odeon hall, Feb. 27.

Clarence McDonald has been the guest of relatives in North Norway.

Lyman Wheeler has purchased Will Whitney's place on Main street.

Alice Mason has gone to Farmington to visit her cousin, Mrs. Clinton Metcalf.

Annie Pingree has gone to the Children's hospital in Portland to train for a nurse.

Ms. and Mrs. Robert Blisbee of Lewiston have been spending a few days in Bethel with their parents.

Mr. and Mrs. Sayle Carter of Colebrook, N. H., have been the guests of his mother, Mrs. Ella Carter.

Dr. Frank Packard of South Paris is spending a few days with his brother, H. A. Packard, who has been sick for some time.

W. W. Hastings and A. M. True celebrated their birthdays jointly at the hotel, Tuesday evening last week, with a 7 o'clock dinner. Seven guests were entertained and cards were enjoyed during the evening.

Mrs. Merriek Tibbets held a Valentine party at her home on Main street. The rooms were prettily decorated with hearts and arrows and what was enjoyed until a late hour. J. L. Phinney had the highest score and was presented with the prize, a heart shaped box of confectionery. Dr. Brown had the lowest score and was given a prize, a small bowl. A lunch was served in the dining room and valentines were used for place cards.

**BIRD HILL.**

Crows have returned to this place. Frank Vertaski is still hauling pulp. Potatoes are a little on the gain in price.

C. P. Day is hauling pulp for Mr. Tyler.

Farmers are busy, looking after brown tail moths.

Chas. H. Buck, who has been confined to the house, is able to be out.

Mrs. A. B. Tyler is sick and cared for by her mother, Mrs. G. C. Aldrich.

William Jackson has sold his brood mare, Bessie J., to Chas. H. Buck.

A. B. Tyler has a duck of the Island pullets that commenced laying Jan. 12, and have laid 60042 eggs up to this date.

**Ask Mr. Brown**

Here's Some Important News for Men Who are Growing Bald.

People who have taken our word for it that PARISIAN SAGE is the real hair grower, beautifier and dandruff cure have never been disappointed. Here's the word of a person who took our word.

"I have been using PARISIAN SAGE about a year. When I began to use it I had only a light 'fuzz' on my head. Now I have a good thick growth, and it is growing thicker and longer right along. Many people don't believe it can be done, but I know from my own experience with PARISIAN SAGE that it can. I recommend it in the fullest confidence."—Gale Brown, 708 North Fillmore St., Maryville, Mo.

The above statement was made to Dr. C. D. Koch of the Koch Pharmacy, Maryville, Mo., April 29, 1911. Large bottles 30 cents. Buy your store and druggists everywhere. It is guaranteed.

**AUTO TRUCK ON THE FARM.**

Many Uses Found For This Type of Motor Driven Vehicle.

Although the ordinary tonneau type of automobile is rapidly coming into general use on the farm and has proved its value for service as well as pleasure, there is one form of recent development, the auto truck, that has not received from farmers the attention it deserves, says the Farm and Ranch. This form of car is rapidly earning a place for itself in the cities as a general delivery and hauling wagon and is destined to become as widely and favorably known on the farm, for it is an ideal general purpose car and has many advantages that recommend it for everyday farm use.

A car in daily use on a 600 acre Matagorda county (Tex.) farm is a light auto truck that has proved itself to be one of the most useful pieces of equipment on the farm. The car in question is a two cylinder, twenty-two horsepower model, with engine and working parts identical in all respects with those of the usual tonneau type. The tonneau, however, is replaced by an express wagon body about 7 feet

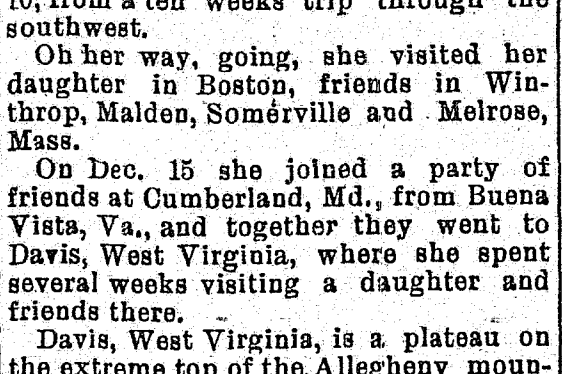

Photo by Long Island agricultural experiment station.

## Running a Farm Auto Truck.

by 4, and fitted in this way the car will carry loads of up to a ton in weight over the average country dirt road at a speed of from three to twenty miles an hour. Its added hauling capacity in no way interferes with its use as a pleasure car, as it can be very easily converted by the addition of a couple of surrey seats built to fit on to the body and which can be put on or taken off in a moment like the ordinary hack seat. So rigged the truck can carry six or eight persons comfortably, covering as much ground in a day's run as the average road car. The truck is used for all the hauling except the very heaviest, and the work is done so much more rapidly than by team that there is a very marked saving in time, than which no other item on a farm runs more quickly into money. In addition to the direct saving in time an important feature in the use of the motor is the fact that in busy seasons all of the mules can be used exclusively for field work and there is no necessity for breaking into the regular plowing, cultivating or harvesting outfits just when they are most needed. The order to get teams to do the various hauling jobs that are always coming up at such inconvenient times or to make unavoidable trips to town for freight, supplies, repair parts, etc.

## Make Every Straw Count.

It is possible for careless help to leave a considerable portion of the grain crop in the field by neglecting to gather up scatterings, loose bundles, etc., and by hauling grain on open bottom racks. From a few pounds to a few bushels of grain may be saved every day, during stacking, by using a tight bottom rack or a canvas over the rack that will catch all of the grain that is shattered out of the heads.—Orange Judd Farmer.

## Feed Costs More Than Care.

Build good hoghouses before bad weather sets in. Hogs in the end are cheaper than feed at present prices, and hogs will not do their best when compelled to sleep out of doors in bad weather. A good feeding floor pays well. Enough feed is wasted on the average farm by throwing it into the mud and slush to pay the mortgages.

## Lazhybody Didn't Have Time to Dig his Potatoes before they Froze in the Ground last Year, and the Year before they Froze in the Cellar before he could fix it.

The Lazhybodies have five dogs hanging round the kitchen door. Bill licks it don't pay to keep hogs, 'cause there's nothing in 'em left to feed them.

## To Make sure that bread will rise in cold weather, warm the flour before mixing.

**Health Insurance**

is unnecessary for those who keep well all the time. The best way to keep well is by proper diet, sufficient rest, enough exercise, and above all things by keeping the bowels regular. If you are unfortunate enough to be suffering from sick headaches, disordered liver, dyspepsia, or constipation, you can get quick relief by a change of diet, by reforming your habit of hasty eating, by regulating the amount of rest or exercise, and by depending on the True L. F. Atwood's Medicine to relieve you of other disturbing symptoms. You can insure your health against sickness at little expense, by systematic use of this old and reliable household remedy. It has helped thousands and is a household remedy today in hundreds of homes. Large bottle, small dose, thirty-five cents at any dealer's. Sample free for the asking. "L. F." Medicine Co., Portland, Me.
